

Jeff White

Graphic Design / Web Design

■ Focus

I've always been interested in Graphic Design. In high school I was introduced to Adobe Photoshop and from that day on, I knew what I wanted to do with my life. I went to Dakota State University where I graduated with a Bachelors Degree in Graphic Design and a minor in Web Design. Even though my schooling is done I'm still learning new things everyday. I continue to keep up with the latest trends by reading design articles, frequenting blogs, and doing tutorials. I am fluent in most industry standard software. Design is my passion and every new project/job presents an opportunity to learn something new.
